### **CA FFA Greeting:**

Hey California FFA! My name is Miriam Alvarado and I am currently serving as the 2019-2020 CA FFA State Reporter! This year I cannot wait to delve into meaningful conversations with you all. Our association is successful due to the efforts you put in every day and I am excited to learn your perspectives on how to grow our association!

### **FFA Biography & Timeline:**

My first exposure to FFA was through my older sister when I was 9 years old. By the time high school rolled around I found a support system and home in our AG department. Today, though I live in more of an urban city, I can confidently say my future is heavily invested in the agricultural industry and personal development thanks to this organization.
