**2018**

The company that we will use for this year's Agriculture Sales Contest will be Orchard Machinery Corporation Products

Orchard Machinery Corporation was formed in 1961 and began producing hydraulic tree shakers to enable a more efficient prune harvest. Like most agricultural engineering innovations which preceded it such as the cotton gin, combine harvester and the tractor, OMC's tree shaker replaced time-consuming and inefficient manual field work, in this case prune harvesting, with a reliable mechanized alternative which provided consistent results and higher output at a lower cost. Today, OMC offers a full line of tree nut and fruit harvesting solutions to meet the needs of modern growers around the world.
